

MMF
Induction

ABOUT US

MMF Induction Pvt. Ltd. is an established manufacturer and supplier of induction heating equipment and industrial cooling units for the various metal heat treatments. We also undertake maintenance, servicing and supplying of spare parts of other brands. MMF Induction Pvt. Ltd. was established in the year 2012 and was formerly known as Faraday Power Systems. Since then, we have managed to create a niche for ourselves in this sector, building on our expertise and value for money products. We are focused on providing the best industrial heating systems with proven domain knowledge at the best prices.

MISSION

Our mission is to revolutionize heating solutions through advanced induction technology. We are committed to delivering efficient, reliable, and sustainable heating systems that empower our customers to enhance their productivity while minimizing environmental impact

VISION

Our vision is to establish ourselves as the global leader in induction heating technology by continuously driving innovation and sustainability across diverse industries. We are committed to empowering our customers with state-of-the-art, energy-efficient solutions that not only enhance productivity but also significantly reduce environmental impact

“ We are Indian representative and channel partner for **FIVES CELES France** ”
